Dear Brittany,

Congratulations, your application into N-2 for the June 2017 solicitation was successful.

The application was submitted for 1971618 located at:
210 Stewards Court
Bear
DE, 19701

To complete your application setup, you need to sign a contract known as the Transfer Agreement. Log in to your SRECDelaware.com account to access your Transfer Agreement and follow instructions for returning your signed copy by September 1st, 2017. Any systems that have not returned a signed copy of the transfer agreement by September 1st will have their contracts revoked.

If you need help finding and completing your transfer agreement, please view our help page at <http://www.srecdelaware.com/accepted-to-solicitation/>

If you have not already, you also need to provide your DE Certificate Number by logging in to your SRECDelaware.com account. Your bid deposit will be returned as soon as we are able to verify the number that you provide.

Please note that all SRECs created from June 2017 forward need to be sold through the SRECDelaware Program. If you are currently using an aggregator to sell your SRECs you need to contact that aggregator to terminate your contract with them. Please do not give them any new meter readings.

For more information on the solicitation results please go to [srecdelaware.com](http://www.srecdelaware.com).

Thank you for your participation in the program.

Best Regards,

The SRECDelaware Team
